

SyncDoc AST to PDF Engine

Welcome to the **SyncDoc Collaborative Document Platform**. This document demonstrates all supported AST nodes.

Here is a paragraph with *italicized text*, underlined text, and a [hyperlink to SyncDoc](#). This text appears after a line break in the same paragraph.

Supported List Formats

- First bullet item
 - Second bullet item with **bold detail**
5. Numbered item starting at 5
 6. Numbered item starting at 6

Quotes & Code Blocks

Conflict resolution in AST documents ensures all concurrent edits merge deterministically without loss of intention.

```
function exportPDF(ast) {  
  const ir = transformAST(ast);  
  return generatePDF(ir);  
}
```
